

1 Is the material a solid or a liquid? Solid _____ Liquid _____

2 What is the material? (*Briefly describe below the material and process from which it is generated*)

For Example: "electric arc furnace dust" or "wastewater treatment plant sludge"

3 Is your material an "F" or "K" listed hazardous waste?

No	Yes	If Yes, List Code(s):

4 Is your material:

- ignitable (D001, i.e., flashpoint less than 140°F)?
- corrosive (D002, i.e., pH < 2 or > 12.5)?
- reactive (D003, i.e., containing cyanides or sulfides)?

No	Yes	Do Not Know

5 Based on process knowledge and facility operations, please indicate if the material potentially contains any organic constituents identified in the list provided at 40 CFR 261, Appendix VIII. Please provide information for each of the constituent categories below.

Constituent Category
Volatile Organic Compounds (VOCs)
Semi-volatile Organic Compounds (SVOCs)
Pesticides
Herbicides

No	Yes	Do Not Know

6 Which of the following metals does your material contain?

- Arsenic
- Barium
- Cadmium
- Chromium
- Lead
- Mercury
- Selenium
- Silver

No	Yes	Do Not Know

I hereby certify that all of the information given is true and accurate and has been fully disclosed to describe this waste material. I understand that INMETCO is not responsible for determination of waste classification. If any changes occur in the character of the waste, the generator shall notify INMETCO prior to sending the material to the INMETCO facility.

Signature: _____ Title: _____

Printed Name _____ Date: _____

Facility Name: _____ Facility Address: _____

Email: _____ Phone Number: _____

INMETCO®

Operations Material Profile

In order to determine if a material can lawfully and safely be processed by INMETCO, it is required that the Generator fill out, sign and send this original two-page document with a representative sample* (approximately 1 pound for solids or 16 ounces for liquids) to:

INMETCO
Attn: Lab, Maintenance Warehouse
One Inmetco Drive
Ellwood City, PA 16117

If you have questions, please call: 724.758.2800, or Fax 724.758.2845, or by email at sales@inmetco.com

* Samples must be sent in accordance with DOT approved shipping container, packaging & labeling requirements.

Prescreen analysis fee is \$100 by check or \$150 by Purchase Order
(Payment must accompany the sample).

This form must be filled out in its entirety before submitting to Inmetco.

MATERIAL DESCRIPTION:

Amount Generated (tons or gallons): _____ Net tons or gallons /Year

Net tons or gallons Avail. Now: _____ Container Type (drums/totes/boxes/sacks or bulk): _____

Physical Characteristics at 70° F: solid with _____ % free liquid
liquid with _____ % solids, number of phases _____

Chemical Characteristics: pH range _____ to _____ (based on analysis or knowledge)

Does the material contain any of the following? If so, provide levels (ppm), or mark "0" or "NP" for "not present":

Antimony _____ Tin _____ Thallium _____ Beryllium _____ Dioxins _____ PCBs _____

Radioactive > 2 pCi/g _____ (ionizing type if Yes) _____
